All our safety signs are printed on rigid high impact-resistant ABS 0,9 mm thick plastic in consistent bright and vibrant colours that will withstand exposure to UV light for at least three years. Crisp and sharp, they fully comply with legal requirements and meet the SANS 1186 specifications for recognisable communication of hazards and actions without the need for words, conveying effectively in all 11 languages. Available in two sizes: 150 mm x 150 mm and 190 x 190 mm, signs are pre-fitted on each corner with double-sided self adhesive foam for easy fixing. A copy of the useful booklet — *Your Guide to the Use of Safety Signs at the Workplace* is also supplied with each order.
