- Exhaustive A-Z index enables speedy location of relevant legislation.
- Colour coded pages for ease of reference.
- Legislation not yet in force greyed out.
- Corresponding Road Traffic Act legislation still in force is included and highlighted.
- Full Government Gazette references for amendments given.
- Guidance notes.

Roadworthiness

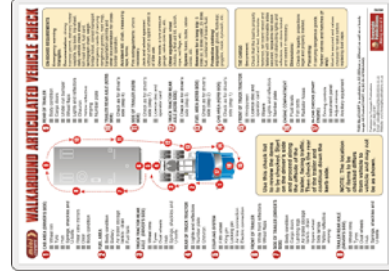

Roadworthy Handbook 2012

If you have a vehicle that is not roadworthy in every respect, then you are throwing money away in insurance premiums. In the event of an accident, a claim may be repudiated, even if the unroadworthy condition did not contribute in any way to the cause of the accident. The authentic reference source for the official roadworthy inspection, it takes the mystery out of SANS 10047 and is widely used by fleet operators, vehicle examiners, workshop managers and body builders. It covers the entire test, explaining the methods and rejection criteria for each inspection item. User-friendly with inspection titles at the top of the page along with the inspection No.

A detailed index quickly locates inspections, regulations and SANS standards. Packed with explanatory diagrams and thoroughly cross-referenced with regulation numbers, SANS inspection numbers and SANS standards.

Walkaround Vehicle Check

Drivers and employers are legally responsible for ensuring that a vehicle is roadworthy and maintained so that it complies with the law at all times. There are severe penalties for failing to do so. Pre-trip inspections are essential to ensure safety and avoid costly breakdowns, damage to cargo and serious injury or loss of life. These MiniCHARTs help ensure that the checks are properly carried out.

Summary of Legal Requirements for Vehicle Types

This MiniCHART serves as a quick guide, summarising obligatory documentation, vehicle marking requirements and mandatory equipment for different types of vehicles. It also tables the applicable driving licence codes as well as indicating where professional driving permits are necessary.

Published by Foresight Publications in A2 (600 mm x 426 mm) or A3 (425 mm x 303 mm), MiniCHARTs are fully encapsulated in a thick laminate with sealed edges. Being semi-rigid they are easy to mount and no frames are needed. On orders of 50 or more, we will customise your MiniCHARTs with your logo and details in the top left corner.
